Monthly average statewide private nursing facility rate	\$10,785	10/1/21
Average monthly state nursing facility rate	\$8,086	10/1/21
Medically needy and Categorically needy income level for single person	\$841	1/1/22
Medically needy income level for couple	\$841	1/1/22

¹ The actual amount depends on the date of institutionalization and the couple's total resources at the time of the applicant's institutionalization. See WAC 182-513-1350. The CSRA is also explained in the CLS publications Q & A on Medicaid for Nursing Home Residents and Q & A on the COPES Program.

² Based on CPIU (Consumer Price Index-Urban).

³ For exclusions from gross income, see WAC 182-513-1340. \$2,523 is the current MSIL (Medicaid Special Income Level).

⁴ Effective April 1, 2012, the Medically Needy In-Home Waiver (MNIW) and the Medically Needy Residential Waiver (MNRW) programs were merged into COPES. **WAC 182-515-1508 sets out the income eligibility rules that determine if an applicant, who is not eligible as CN (Categorically Needy), is income eligible for COPES.**

WAC 182-515-1508(4) provides that applicants whose gross non-excluded monthly income is greater than the SIL (Special income Level - currently \$2,523) are COPES eligible if the applicant's **monthly net income** is no greater than the MNIL (Medically Needy Income Level - currently \$841). **Net income is calculated by reducing gross non-excluded income by:**

- A. Medically Needy (MN) disregards found in WAC 182-513-1345; and
- B. The average monthly nursing facility **state rate** (currently \$7,149).

The \$8,927 number provided here and in the CLS COPES Q&A Pamphlet is derived from adding together the MNIL (currently \$841) and the monthly state average nursing facility rate (currently \$8,086): \$841+ \$8,086+ \$20 general income disregard = \$8,927

Thus, \$8,927 is the maximum allowable gross income for COPES **if the only deduction** from gross non-excluded income is the average monthly nursing facility state rate and the \$20 disregard applicable to all. The \$8,927 number is used in the publications in order to provide a tangible number for use in most cases.

However, if additional deductions can be taken under WAC 182-513-1345, then the maximum gross non-excluded amount may be higher than \$8,927. For example, if an applicant has \$8,971 in gross non-excluded income and pays a non-Medicare monthly health insurance premium of \$150.00, the applicant will be COPES income eligible because net income is less than the \$841 MNIL: (\$8,971 - \$8,086 - \$150 - \$20 = \$715).

⁵ This applies to nursing facility residents only to maintain their home while in the institution.

⁶ This is the amount by which total gifts in a month are divided to calculate periods of ineligibility (in days).
