Your Part B monthly premium is based on your “modified adjusted gross income” from two years earlier, as reported on your federal income tax return.¹ The Social Security Administration will send beneficiaries an end-of-the-year letter, advising them of next year’s premium. If your income has decreased, you may be entitled to a lower premium; the letter should explain how to request this.

¹The standard Part B premium is \$135.50. For certain enrollees, any increase in Part B premiums must be lower than the increase in Part B benefits. Social Security benefits will increase in 2019 by 2.8% due to a Cost of Living Adjustment. Some Part B enrollees who paid a lower premium in 2018 may see their premium increase to the full amount of \$135.50/month due to this increase in Social Security Benefits. Other Part B enrollees will continue to pay less than the full monthly premium of \$135.50/month if the cost of living increase in their Social Security benefit is not large enough to cover the full Part B premium increase.
